Unique Pieces – Collectors Items

1. Diamond and Gem Studded Ivory Elephant – A true Masterpiece of Excellence in Craftsmanship. This has been showcased at many of the International Trade Fairs around the World, and has been the most eye catching exhibit, among the treasures of Australia drawing a great deal of interest and publicity.

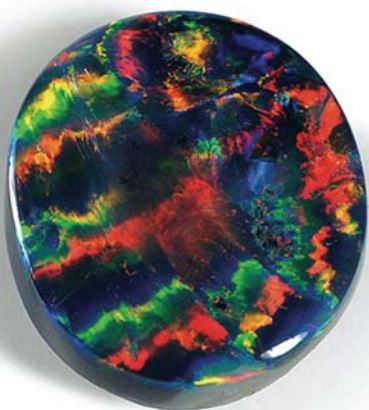

2. Butterfly Brooch / Pendant 18ct Yellow Gold – Imagination and Design Skills with excellent craftsmanship has created this one of a kind piece of jewellery, using Natural colour Tahitian Mabe Pearl Blisters cut into matching free formed shapes, embedded with natural Burma Rubies, Natural Gold and White Diamonds.

3. Ammolite – The New Fossil Gemstone. These Gem Quality Ammolite pieces cut into freeform shapes are being used in jewellery by many of the Award Winning Designers around the World. Most pieces shown in the Ammolite page of this website are also of unique designer quality.

4. Ammolite Fossil - A Rare collectors piece of very colourful 70 million old full fossil specimens from the Rocky Mountains in Calgary, Canada. This has been a showcased piece from the mine owner's, display cabinet. (Approximate Diameter 19cm)

5. Lightning Ridge Solid Black Opal.

This piece of opal named 'The Southern Princess' has had much fame and publicity in many publications on opals. It is the favourite opal of the Lightning Ridge Historian and Author, Len Cram and has been pictured in almost all of his opal promotional books ever since this opal was first photographed and named by him. This is a rare and beautiful ribbon patterned red stone. A true Gem opal weighing 5.43 carats.

6. Ammonite Fossil – Extremely colourful on both sides and a large full fossil. A very hard to come by collectors specimen purchased from the mine owners personal exhibition display collection. The colourful Ammonite fossils are only found in the Rocky Mountains in Calgary, Canada. This ammonite is approximately 46cm in diameter.
